Task 3 - Tokens, Cost, Temperature and Hallucination

Model: gemini-3.5-flash-lite

1. Token count (tiktoken, cl100k_base)

Text	Words	Tokens	Words per token
Short sentence	4	5	0.8
Paragraph	35	38	0.92
Python code	9	20	0.45
Hindi text	11	65	0.17

2. Monthly cost (300 chats/day, 1200 input + 300 output tokens, 30 days)

Item	Value
Chats per month (300 x 30)	9,000
Input tokens per month	10,800,000
Output tokens per month	2,700,000
Input cost ($0.15/1M)	$1.62
Output cost ($0.6/1M)	$1.62
TOTAL monthly cost	$3.24

3. Temperature test (5 runs each)

Prompt: Write one short tagline for a coffee shop. Reply with the tagline only.

Temperature	Unique outputs	The 5 outputs
0.0	3 of 5	Fuel your focus, one cup at a time. | Fuel your focus, one cup at a time. | Fuel for your daily grind. | Sip the extraordinary. | Fuel your focus, one cup at a time.
1.0	4 of 5	Fuel for your daily grind. | Fuel your hustle, one cup at a time. | Fuel your day, one cup at a time. | Wake up to your new routine. | Fuel for your daily grind.

4. Hallucination test (made-up fact)

Question: Who won the 2019 Zorbian Prize in Quantum Gardening, and what was the winning paper about?

Setting	Result	Model answer (first 300 chars)
Without guard	Admitted not knowing	As much as I would love to read up on the latest breakthroughs in interdimensional agriculture, the **Zorbian Prize in Quantum Gardening** and the field of quantum gardening itself are entirely fictional. There is no such award or scientific discipline—at least not in this dimension! If you meant
With 'say I don't know'	Admitted not knowing	I don't know.
